***GPO Access and the eCFR, an online version of the Code of Federal Regulations developed by GPO, both received the E-Gov 2001 “Trailblazer” honorable mention awards.***

from disciplines of interest to the DOE such as chemistry, physics, environmental science, geology, engineering, climatology, oceanography, computer science and related disciplines. Publications in the database represent various forms of literature used to announce DOE's research results, including report literature, conference papers, journal articles, books, dissertations, and patents.

Regular updates to the database will ensure that results of recent research and development are made available. When available, the full text of indexed publications issued since 1995 are linked through the *DOE Information Bridge*, another GPO/OSTI partnership. Publications prior to 1995 are available at more than 1,300 Federal depository libraries located throughout the country and territories.

DOE Information Bridge was the first GPO/OSTI partnership established in 1997. GPO and DOE jointly launched *PubSCIENCE*, an electronic system providing public access to a DOE database of scientific and technical literature, in 1999. In 2000, GPO and DOE initiated two additional services, called the *GrayLIT Network* and *Federal R&D Project Summaries*, that provide users with the ability to find information regardless of where it resides - by searching for documents across multiple databases of many Federal agencies - in response to a single query. The *Energy Citations Database* and other partnership online services are accessible through *GPO Access*.

#### **GPO Access Adds New Listserver Option**

GPO announced a new *GPO Access* service,

GPOLISTSERV (<http://listserv.access.gpo.gov>) in 2001. Through this service, the public has a quick and easy way to receive up-to-date notice about many of the resources available from *GPO Access*.

Customers can subscribe to e-mail listservers moderated by GPO or hosted on *GPO Access* for other Federal agencies. Lists currently available include the *Federal Register Table of Contents* and the *Merit Systems Protection Board Decisions and Studies* lists. Customers can also register to receive free e-mail updates when new publications are placed on sale by the Superintendent of Documents. This service allows customers to specify one or more area of interest from a topic list that currently includes: Business, Elementary and Secondary Education, Defense and Security, Health Care, Military History, and Travel and Tourism. This service can also be reached via GPO's Online Bookstore at <http://bookstore.gpo.gov/alertservice.html>.

#### **GPO Online Products Win Two “Trailblazer” Awards**

*GPO Access* and the eCFR, an online version of the *Code of Federal Regulations* developed by GPO for the National Archives and Records Administration, both received the E-Gov 2001 “Trailblazer” honorable mention awards. In an announcement on May 2, 2001, the Government Solutions Center Selection Committee said that GPO's were two of only 22 Trailblazer Awards selected from more than 300 nominations. The Secretary of Commerce was the keynote speaker at the July 12, 2001, awards ceremony.
